

DENTAL IMPLANTS

Dental implants offer the feel, function, and appearance of natural teeth.

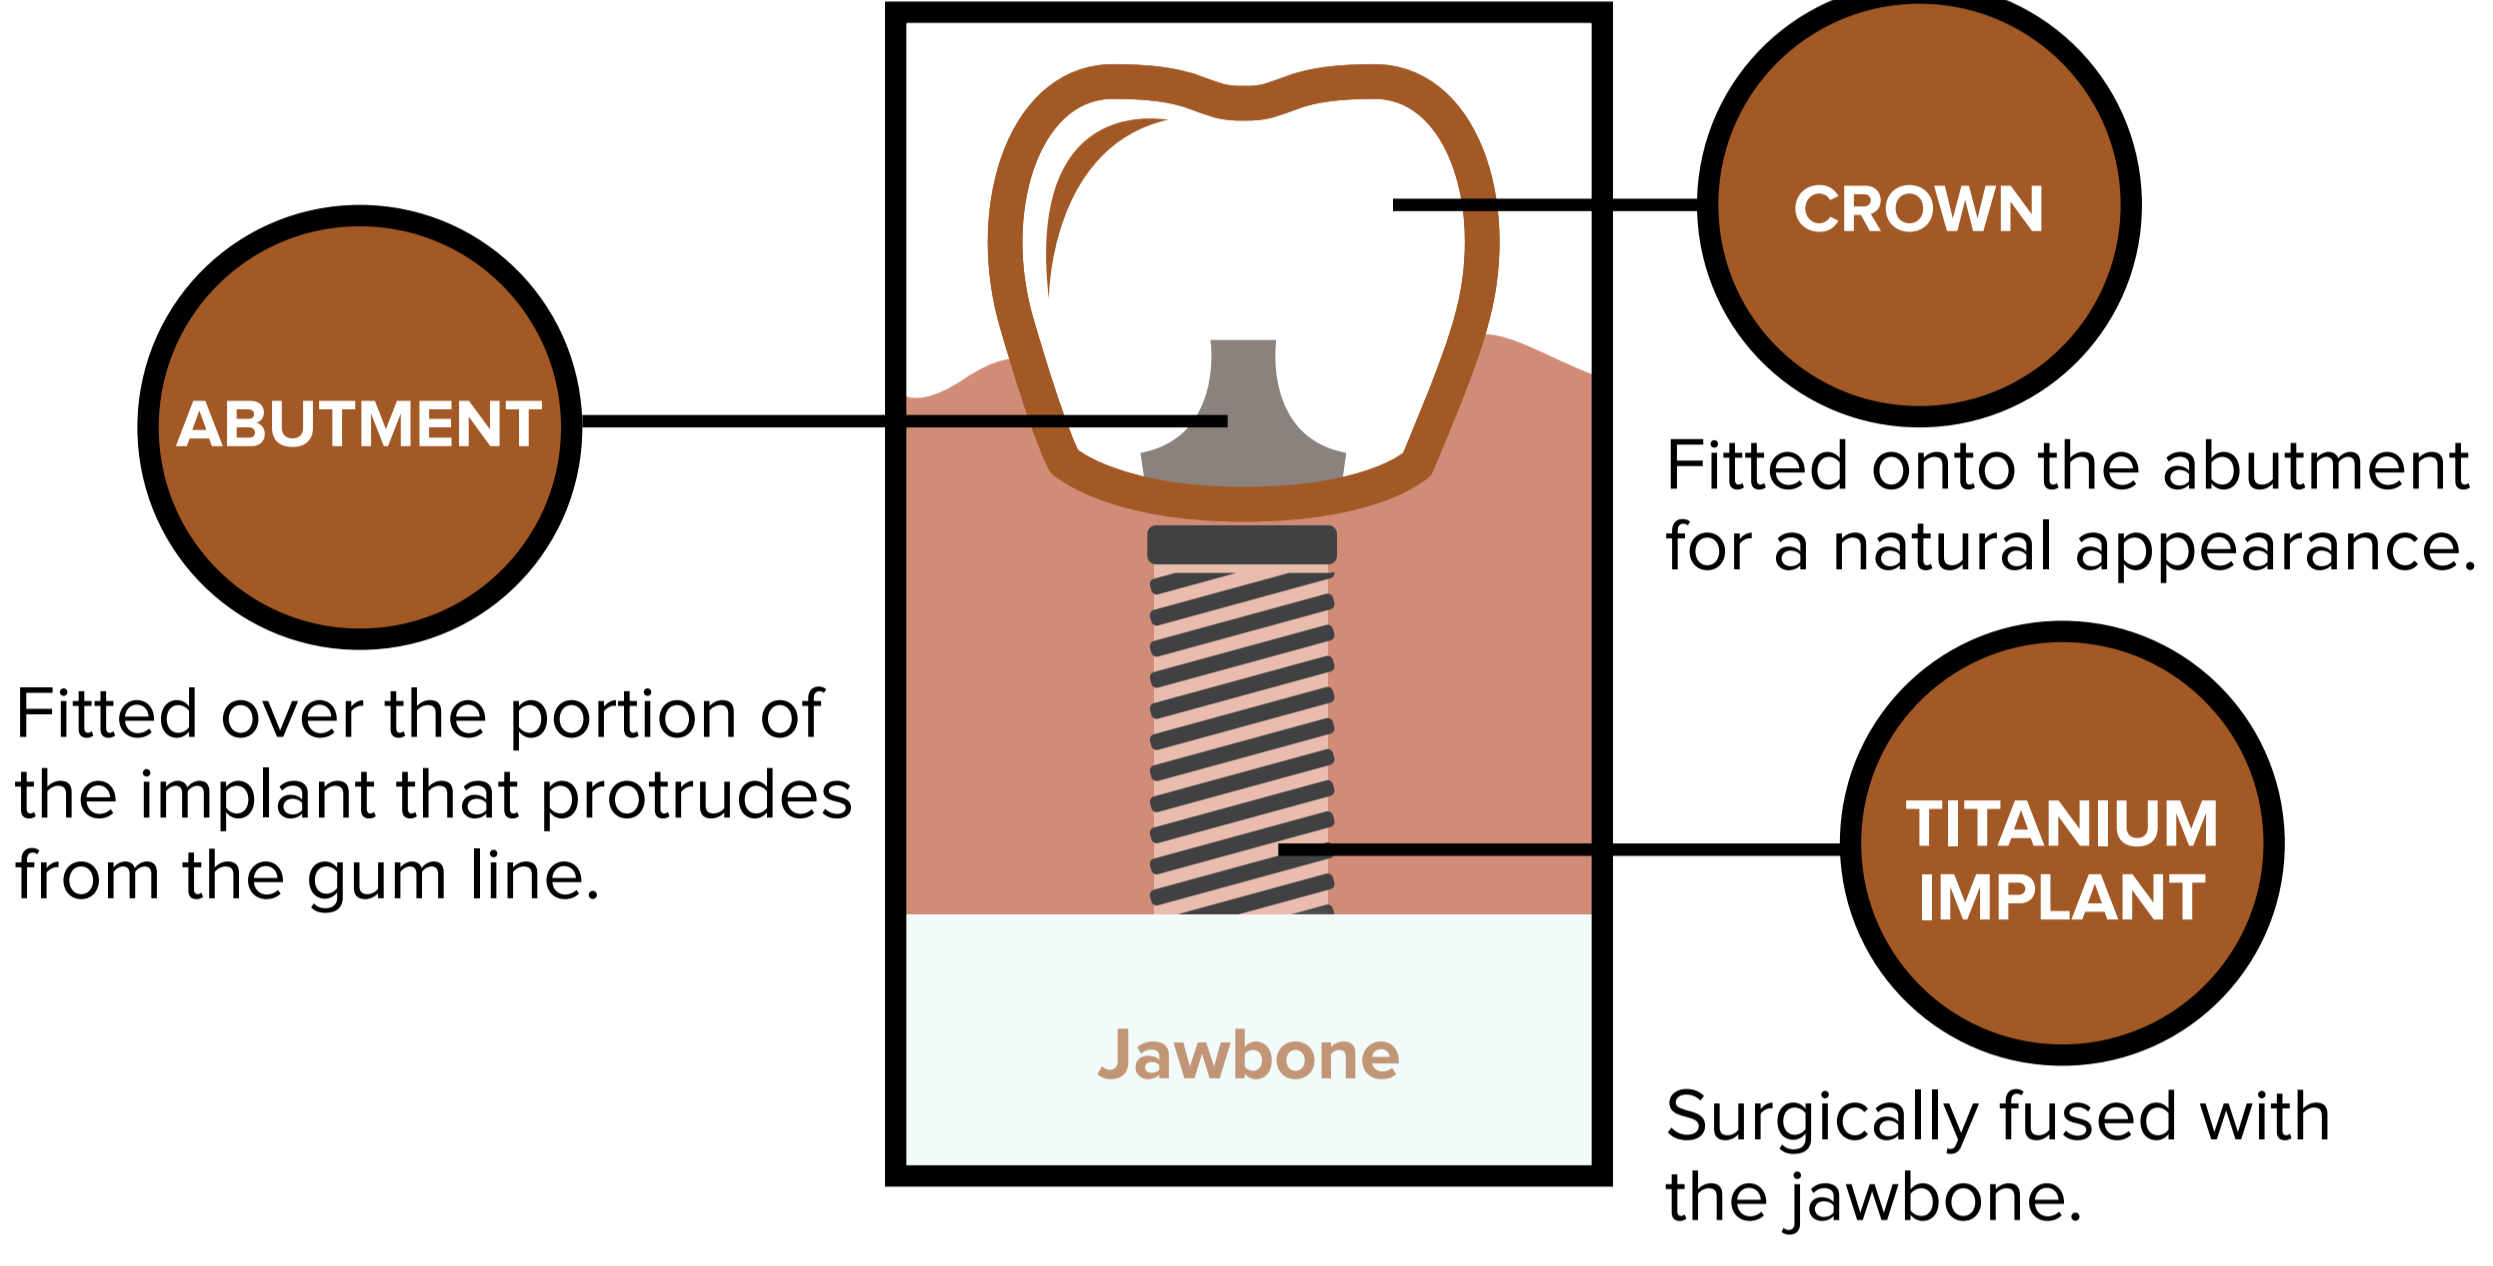

69%

of adults ages 35 to 44 have lost at least one permanent tooth to an accident, gum disease, a failed root canal or tooth decay.

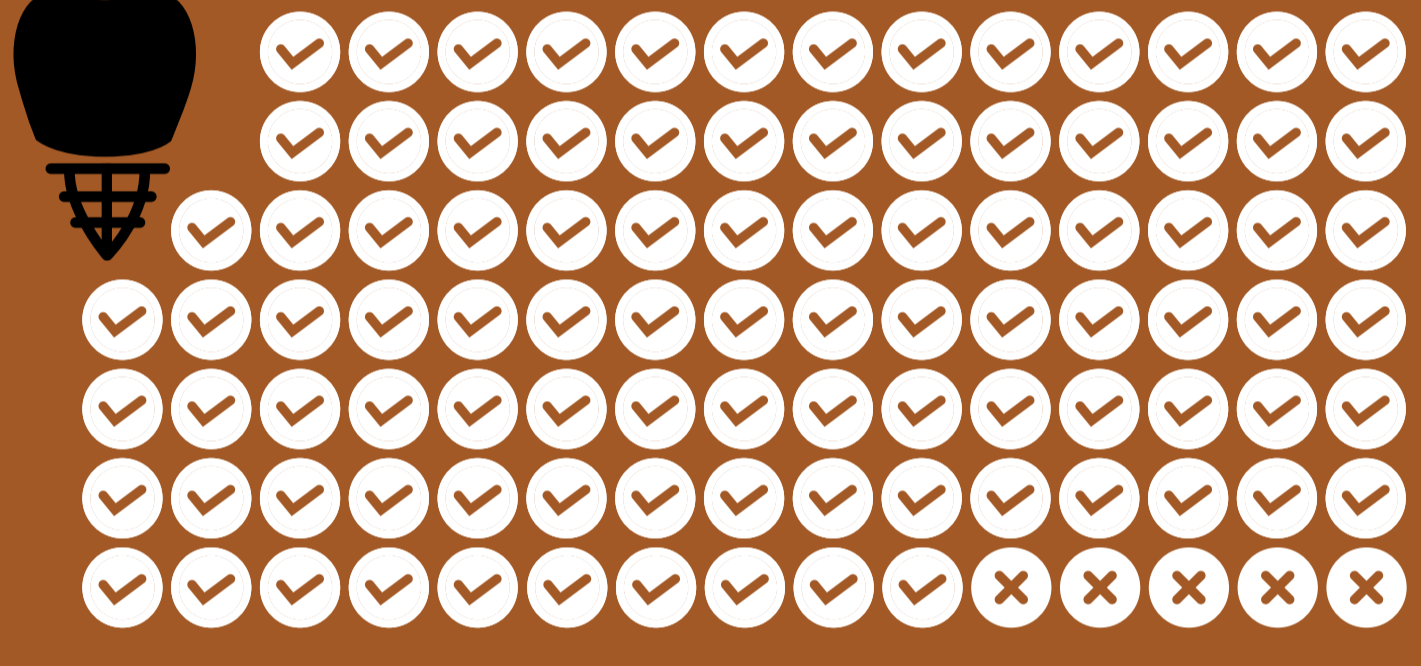

ANATOMY OF A DENTAL IMPLANT

A dental implant designed to replace a single tooth is composed of three parts:

Implants have an overall success rate of

95%

BENEFITS OF DENTAL IMPLANTS:

Protect healthy bone from deterioration.

Retain your natural smile.

Can last a lifetime if properly placed and cared for.

Look, feel, fit, and function like natural teeth.

Allow you to speak, eat, and smile naturally.

“HOW MUCH DO DENTAL IMPLANTS COST?”

No two patients are alike.

After an initial examination and assessment, our team will provide you with a treatment plan and cost estimate specific to your needs.

CONTACT US TODAY TO DETERMINE IF YOU'RE A CANDIDATE FOR IMPLANTS!
